Investment Objective

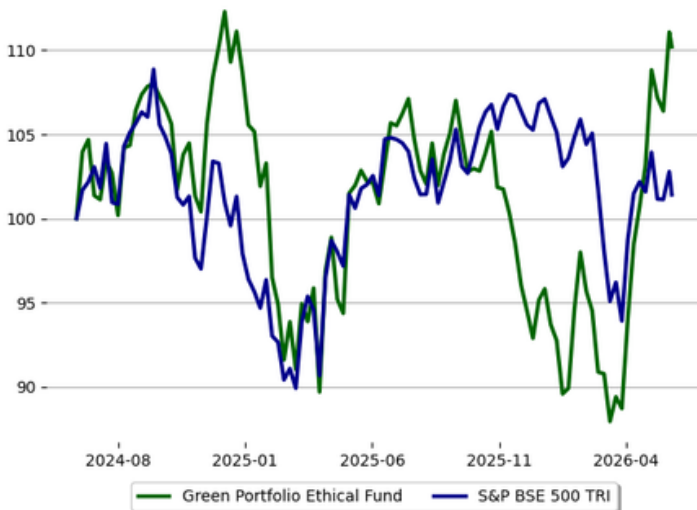

To generate long-term capital appreciation through investment in listed equity and equity-related securities of companies listed on recognized stock exchanges in India, following ethical and Shariah-compliant investment principles and is multi-cap in nature.

The investment approach seeks to identify fundamentally strong and scalable businesses with sound management quality, governance standards, sustainable growth potential, and ethical business practices through a research-driven and bottom-up investment process.

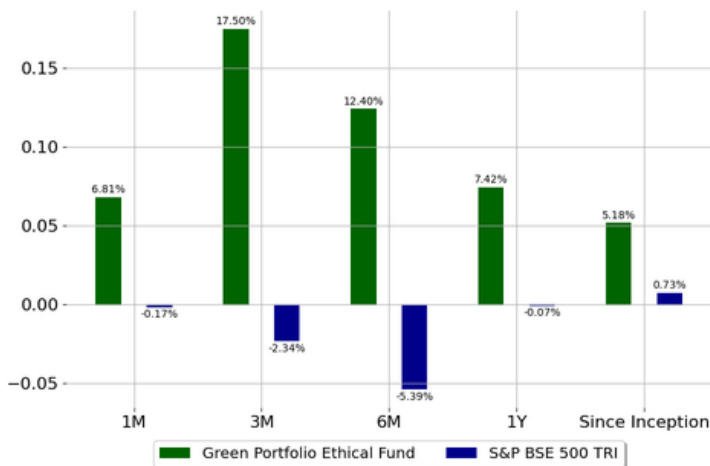

However, there can be no assurance that the investment objective of the investment approach will be achieved.

TESTIMONIALS

I have been with Green Portfolio now for two years. The service he and his small team provide has been very personal. The reassurance in words and lucrative returns, especially during these crazy times has strengthened my trust in them. The peace of mind, knowing that my money is well managed is priceless. Thank you, Anuj!
